Bristol

ZERO WATER ADDED:

Our haddock fillets are all-natural, preservative free and have zero water added. The result is a difference you can see and taste.

HIGH IN PROTEIN:

Haddock is high in protein, low in fat and full of essential vitamins. A 3oz. serving of cooked haddock contains 20.6 grams of protein, roughly 40% of the recommended daily intake.

SUSTAINABILITY:

- MSC certified fishery
- Long line fishing method reduces emissions more than 3x compared to trawl fishing
- Ocean freight transport reduces our carbon footprint compared to air travel
- Full utilization of the fish: skin, trim, and bones are collected for further use in pet food, agriculture, and cosmetics.
- All retail packaging is recyclable or reusable.

SPECIFICATIONS:

HARVEST LOCATION	NORWAY
HARVEST METHOD	LONGLINE CAUGHT
SPECIES	MELANOGRAMMUS AEGLEFINIUS

PRODUCED & DISTRIBUTED BY:

Wild Caught HADDOCK

ALL-NATURAL AND SUSTAINABLE

Maine is the gateway to the freshest seafood on Earth. It is also our home. We are a locally owned certified B Corp based in the heart of the Portland waterfront. When your customers demand the best tasting haddock without compromise, they deserve Bristol. Our Norwegian haddock is line-caught in the ice cold waters of Norway, frozen at sea within 4 hours of catch, and shipped directly to our processing facility in Portland, Maine where it is filleted and hand trimmed. From protein to packaging, Bristol is dedicated to environmental sustainability across the supply chain and takes conscious steps to minimize our ecological impact. Bristol offers consumers an unparalleled haddock fillet—one that not only excels in taste and appearance but also reflects a commitment to preserving the oceans and the planet.

Thanks for supporting our company and joining our mission to make seafood your favorite protein.

Enjoy!
